Don't Miss Momentum

At the initial Momentum Conference in 2007, more than 300 of Honeywell's top contractors like you enjoyed three days of informative workshops, training, industry forums, networking events and an exhibitor trade show. Whether you've been anticipating a return visit or are ready to attend your first Momentum Conference, the time to mark your calendars is now.

The 2009 Momentum Conference will be held March 29 through April 1 at the Hilton Anatole in Dallas. You'll be among the first to see the latest Honeywell products, and you'll enjoy excellent workshops and forums on everything from building automation to energy conservation to business-building tips. More details will follow, but save these dates and make sure that the 2009 Momentum Conference is part of your 2009 plan for continued success.
